MEMORANDUM FOR: Deputy Director for Management and Services  
SUBJECT : Weekly Report

1. Fuel Shortages: We have received word that our fuel allocation for our generators at the transmitter site in [REDACTED] has been reduced. We are attempting to determine the exact amount, and it now appears that we will be able to continue operation with the reduced supply, but we will have to reduce some service. Indications from other areas are that fuel shortages may cause cutbacks at several other locations. We are attempting to pinpoint these problems and are working with the Office of Logistics on them.
